# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 1-15, 2007**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov)

Thank you for your cooperation in the CEQA review process.

# ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE

## 1999 through 2006

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

### SUMMARY OF CEQA DOCUMENT SUBMITTALS BY YEAR AND BY TYPE

Year	NOP	ND/MND	EIR	NOD	NOE	EIS	EA	Other	Total Documents

EIS	Draft Environmental Impact Statement (federal)
OTHER	Other types of documents, including Final EIRs, Early Consultation notices, plans, etc.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, March 01, 2007</u></b>			
2006022037	Shiloh II Wind Plant Project Solano County Rio Vista--Solano The Shiloh II Wind Project would include construction of 88 wind turbines that would provide a total generation capacity of approximately 176 MW of electricity. A separate but related project, the Reconductoring Project includes reconductoring by PG&E of an approximately 11-mile segment of the Vaca Dixon-Contra Costa 230 kV transmission line to accommodate increased electrical capacity to serve the Shiloh II Wind Project and other projects in the WRA.	<b>FIN</b>	
2007031002	Proposed Tentative Tract PLN07-00011 Victorville, City of Victorville--San Bernardino To allow for the development of a 71-lot single family residential subdivision on 17 gross acres.	<b>MND</b>	03/30/2007
2007031010	California State University, Sacramento - Electronic Message Board California State University Trustees Sacramento--Sacramento The proposed project is an electronic message board with a total height, including support structure, of approx. 85 feet. The foundation will be an 8-foot diameter, augered footing, 28-feet deep, around a 48-inch base pipe. The dimensions of the sign panel are 14 feet tall by 48 feet, 2 inches wide. The visual display portion of the panel is 13-feet tall, 6 inches by 47 feet, 8 inches wide. A portion of the display portion will be used as a California State University, Sacramento identifier. The dimensions of this portion are 8 feet, 5 inches tall by 19 feet, 6 inches wide. The brightness of the sign is rated to be 5,718,894 Lumens. The display will come wired to a central breaker panel, which will require primary feed of 2,425 amps at 120 volts. The sign panel would be visible to drivers on Highway 50. The message board will be leased out for advertising and also would be used by the University to post event notifications and Amber Alert messages in accordance with Caltrans Agreements.	<b>MND</b>	04/02/2007
2007032005	MS503-06 Mann Lafayette, City of Lafayette--Contra Costa A minor subdivision and hillside development permit to divide a 39.35 acre parcel into four lots for single-family residential development. Parcel A is +/- 4.2 acres and is currently developed with a barn. Parcel B is +/- 2.1 acres and is currently developed with a riding arena/pasture. Parcel C is +/- 18.6 acres and is vacant/unused. Parcel D is +15 acres and is developed with a single-family residence. All four sites will be accessed via the existing bridge at the end of Prado Way. Parcels A and D will be accessed via an existing 18' wide driveway, which narrows to 16' past Parcel A. Parcels B and C will be accessed via an existing 12' wide driveway and firetrail widened to 16'.	<b>MND</b>	03/30/2007
2007031007	Smart Energy Transport System Los Angeles Bureau of Engineering Los Angeles, City of, Carson, Compton, Gardena, Hawthorne--Los Angeles The proposed fuel delivery system includes an approximate 24-mile pipeline of 12 to 16 inches in diameter as well as ancillary pumping and receiving systems. The proposed pipeline would originate at the Vopak Inland Terminal in the Wilmington	<b>NOP</b>	03/30/2007

## CEQA Daily Log

	area of the City of Los Angeles, travel north through the City of Carson, unincorporated Los Angeles County, City of Compton, additional areas within City of Los Angeles, City of Gardena and City of Hawthorne, arriving at the Los Angeles International Airport (LAX). The proposed ancillary facilities would include a new pump station at the Vopak Inland Terminal, a new delivery connection to the Watson Pump Station in Carson, and a new receiving system at LAX.		
2007032006	Mountain View Home Depot Mountain View, City of Mountain View--Santa Clara The project sponsor proposes to construct a Home Depot on the foot print of the existing Sears Department Store. The project would result in the demolition of the Sears Department Store. The project would not utilize the entire footprint of the existing buildings; it would have a net decrease of approximately 30,000 s.f. in retail space. The proposed project would have 129,000 s.f. of commercial space, including a 93,300 s.f. home improvement store with a 19,000 s.f. outdoor Garden Center, a 15,500 s.f. mezzanine, and a 1,260 s.f. vestibule.	<b>NOP</b>	03/30/2007
2007031003	Ventura County 2007 Air Quality Management Plan (AQMP) Ventura County Air Pollution Control District --Ventura The 2007 AQMP presents Ventura County's strategy for attaining the federal 8-hour ozone standard, as required by the federal Clean Air Act Amendments of 1990. The 2007 AQMP also presents the District's 2003 2005 Triennial Assessment and Plan Update (Triennial Assessment) required by the California Clean Air Act of 1988 to evaluate Ventura County's progress towards meeting the more stringent state 1-hour ozone standard. A fuller project description is provided in the project Initial Study.	<b>Neg</b>	04/06/2007
2007031005	Coal Oil Point Reserve Habitat Management Plan University of California, Santa Barbara Goleta--Santa Barbara UCSB's Coal Oil Point Reserve, located on West and North Campuses, is proposing to restore approximately 50 acres of exotic grasslands into the original native coastal scrub and grassland habitats. Restoration includes removal of exotic plant species and re-vegetation with native species. Vegetation removal and planting would be done by hand. Exotic grassland will be replaced with native grassland. A combination of mowing and solarization by black plastic will be used to remove the non-native grasses and then native seedlings will be planted by hand. Sprout and young eucalyptus trees will be removed and the larger trees will be pruned up to 4 meters from the ground to encourage growth of native grasses. The restoration will occur in phases over approximately 10 years.	<b>Neg</b>	03/30/2007
2007031006	Project No. 484; 20th Street West Improvements at Amargosa Creek Palmdale, City of Palmdale--Los Angeles The proposed project is the southerly extension of 20th Street West from its existing southern terminus at Avenue P-8 to a new terminus at Elizabeth Lake Road at which intersection a new traffic signal will be installed. The new roadway extension will include two lanes in both directions with shoulders, curb, gutter, and sidewalk on both sides. The proposed street will widen at the intersection of Avenue P-8 to five lanes to accommodate a dedicated right turn lane. At the intersection of Elizabeth Lake Road, the new roadway extension will widen to six lanes with a raised median. The proposed six lanes at Elizabeth Lake Road	<b>Neg</b>	03/30/2007

<b><u>Documents Received on Thursday, March 01, 2007</u></b>			
	include two northbound lanes and a dedicated right turn lane plus two southbound left-turn lanes and one right turn lane. In order to extend 20th Street West to Elizabeth Lake Road, a new bridge will be constructed over the Amargosa Creek. The proposed bridge is a cast-in-place pre-stressed box-girder concrete structure supported by two abutments on the ends. The bridge will carry four lanes of traffic with a shoulder and a sidewalk on each side. Pedestrian lookout areas will be provided on both sides of the bridge. The bridge will have a span of approximately 120 feet and a width of 80 feet. The vertical clearance is approximately nine feet. Concrete bicycle and pedestrian trails with a width of 16 feet will be constructed between the channel and the abutments along the creek banks. The creek channels will be hard bottom soil cement.		
2007031008	Morro Bay Golf Course Master Plan ED 02-302 San Luis Obispo County Morro Bay--San Luis Obispo The Master Plan includes: creation of fifteen new sand bunkers, modification to five existing bunkers, the creation of grass mounds, 3,680 linear feet of golf cart path reconstruction, construction of 11,160 linear feet of new golf cart path, construction of a black, chainlink fence adjacent to Tee Box 6, driving range reorientation, installation of a new 50-foot tall safety net, the replacement of two restrooms, tee expansion, the removal of diseased Monterey pine trees, myoporum shrubs, hazardous eucalyptus trees, and Monterey cypress and the planting of 650 trees of California native and Mediterranean climate species. The purpose of these modifications is to address course layout problems that result in play interference, re-orient the driving range away from existing neighboring houses, provide other safety modifications and respond to the continual die-off of mature Monterey pine trees due to age and disease. In addition, the Parks Division proposes to continue storing up to 15,000 cubic yards of soil within existing soil stockpiling areas on the project site.	<b>Neg</b>	03/30/2007
2007031009	Singh Residence Grading Plan (L 14748) San Diego County Department of Public Works --San Diego The project is a grading plan for the grading associated with the construction of a single-family residence. The total amount of grading proposed is approximately 6,800 cubic yards.	<b>Neg</b>	03/30/2007
2007031011	Construction and Operation of a New Civil Maintenance and Mobile Equipment Building at Cedar Springs Dam Maintenance Stn Water Resources, Department of Hesperia--San Bernardino California Department of Water Resources, Division of Operations and Maintenance, Southern Field Division, and the Division of Engineering, propose to construct and operate facilities at its Cedar Springs Maintenance Stn for office, civil maintenance, and mobile equipment repair activities. Construction in 2007 includes a 180' x 80' pre-fabricated steel building with interior plumbing, wiring, and HVAC equipment. The completed structure would dedicate space to offices, a water treatment plant, a carpentry shop, a welding shop, a mobile equipment repair bay, a vehicle washing area with vehicle wash water reclamation system, restrooms with showers, kitchenette, general storage, boat storage, oil storage, and building operation and support facilities. Minor site grading improvements will allow for paving parking and one driveway entrance from DWR's Mojave Siphon Power Plant Road. There will be no significant adverse environmental impacts associated with this project.	<b>Neg</b>	04/02/2007

2007032007	South Lake Tahoe Airport Comprehensive Land Use Plan Amendment South Lake Tahoe, City of South Lake Tahoe--El Dorado South Lake Tahoe CLUP defines the planning boundaries around the South Lake Tahoe Airport. The CLUP defines three Airport Safety Zones, Zone 1 - Runway Protection Zone (on airport property), Zone 2 - Approach Zone, and Zone 3 - Overflight Zone, in order to regulate land use compatibility with airport operations. The intent of the CLUP is to reduce risk to those on the ground by limiting the intensity of uses and the concentration of people in areas most likely to be affected in the event of an aircraft accident (i.e., areas under the typical flight path of aircraft using the airport). The amendment will modify safety policy with respect to changes in use (without new construction) to be consistent with existing CLUP policies for new construction. The amendment will also clarify and update the implementation language within the Airport Safety areas to allow ease of use by the public and staff to provide for consistent implementation.	<b>Neg</b>	03/30/2007

2004081092	<p>Northlake Specific Plan Phase I, Project No. 98-047 (CUP, VTTM51852, SP and Development Agreement Amendment) Los Angeles County Department of Regional Planning --Los Angeles</p> <p>The proposed project is a request for a Specific Plan and Development Agreement amendment of the Northlake Specific Plan (Specific Plan) to remove the requirement of a golf course, permit schools serving grades kindergarten through 8th, provide flexibility to locate the required library site within or off-site in close proximity to the Specific Plan area, and modify the recycled water system for the golf course and landscape irrigation; approval of VTTM 51852 to subdivide Phase One area of the Specific Plan into 1151 lots; and two separate CUPs, one for site plan review of VTTM 51852 and Specific Plan conformance and the other for off-site grading. VTTM 51852 involves the development of approximately 670 acres of the 1,330-acre Specific Plan area. The Tentative Tract Map proposes the development of 1053 single family residences; 645 multi-family residences; one commercial lot; four industrial lots; a recreation center; a school; 22 park lots; 48 open space lots; and debris basin lots. Other proposed infrastructure improvements include a network of streets, seven water tanks, and the relocation of an existing oil pipeline as well as telecommunications, gas, and water lines. Approximately 30.8 million cubic yards of earthwork consisting of approximately 19.5 million cubic yards of bulk earth movement (cut and fill) and 11.3 million cubic yards of remedial earthwork and final grading is proposed. Grading will occur over an approximate 672-acre rough grade footprint, plus an additional 24.8 acres of grading related to the water tanks and electric transmission tower re-alignment. This footprint includes the approximate 77-acre adjacent borrow site from which bulk earth movement of approximately 5.8 million cubic yards of cut material will be obtained.</p>	<b>SIR</b>	04/16/2007
2002101020	<p>Orange County Great Park Plan EIR Irvine, City of Irvine--Orange</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0258-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicants. The Operators propose to alter the above-named streams to construct the project. As proposed, the project will be a multiple-use development involving various planned areas of development that collectively will meet a variety of needs of the City and the greater surrounding area. The project includes areas/districts zoned for residential development, within which will be commercial, industrial, and retail properties; construction and expansion of California's university campus system; improvement to the existing El Toro Golf Course; and the construction of a second golf course. Associated with these areas of designated development types will be all necessary infrastructure including paved circulation and access roads, utilities, flood control facilities, water quality facilities, storm water collection and treatment systems. The Operators shall not impact more than 24.89 acres of unvegetated stream channel and associated disturbed riparian habitat consisting of willows and mulefat, of which 12.54 acres are permanent impacts (2.76 acres within the unvegetated channel of Bee Canyon Wash, 1.84 acres within a portion of Borrego Canyon Wash consisting of unvegetated channel and disturbed willow and mulefat, and 7.94 acres within numerous man-made drainages with disturbed mulefat), and 12.35 acres are temporary impacts (4.84 acres in Agua Chinon Wash, consisting of mostly unvegetated channel, and 7.51 acres in Serrano Creek consisting of</p>	<b>NOD</b>

	vegetated riparian habitat). The Operators shall mitigate both temporary and permanent impacts on the 24.89 acres at a compensation to impact ratio of 1:1, for a total mitigation obligation of 24.89 acres. The mitigation shall consist of onsite creation/restoration of riparian habitat along Agua Chinon Wash and Serrano Creek.		
2003072036	Extension of Time Water Right Permits Humboldt Bay Municipal Water District Arcata--Humboldt The District proposes an extension of time for its water right permits on the Mad River for a period of 25 years at the level of capacity of the existing system. The objective of the extension of time is to allow the District sufficient opportunity to put its permitted rights to full beneficial use within the community. The District prepared a MND for Extension of Time for Water Right Permits that finds that no new or changed facility or activity is necessary. The MND states that the existing capacity level has already been under contract and use. The MND also states that the flow regime between Matthews Dam and the Essex diversion facilities, 75 miles downstream, will not materially change over time from the current and past flow regime, nor will the amount of water bypassed at Essex for instream resources. The District's water right permits already require a continuous release of water from Matthews and a specified bypass schedule at Essex just below the diversion facilities.	<b>NOD</b>	
	In Order WRO-2004-0038, the State Water Resources Control Board (State Water Board) approved an extension of time for District Permits 11714 and 11715 (Applications 16454 and 17291) to December 31, 2029 and partially revoked the permits. The State Water Board, Division of Water Rights is issuing amended permits consistent with the findings of Order WRO-2004-0038.		
2004051020	Fillmore Water Recycling Plant (FWRP) Fillmore, City of Fillmore--Ventura Development of a water recycling plant designed to meet the City of Fillmore's long-term wastewater treatment needs and water quality standards established by the Regional Water Quality Control Board - Los Angeles and California Department of Health Services.	<b>NOD</b>	
2006052041	Department of Fish & Game - Year 2006 - Fisheries Restoration Grant Program Project Fish and Game (HQ) Environmental Services --Mendocino The project proposes the improvement of instream and riparian habitat through creation of fish habitat with enhancement structures such as anchored or unanchored single log structures and multiple LWD and LWD/boulder structures to increase pool habitat and holding habitat for migrating adult salmonids and over-wintering juvenile salmonids, in Mendocino County.	<b>NOD</b>

	particulate matter less than 2.5 microns in diameter (PM2.5) but the applicable target dates, the AQMP also includes the most current air quality setting, updated emissions inventories of stationary and mobile resources, updated growth projections, new modeling techniques, rate of progress demonstration for NOx and VOC emissions, and an implementation schedule for adoption of the proposed control measures.		
2005092102	Promenade Shops at Orchard Valley Manteca, City of Manteca--San Joaquin The proposed project would be an approximately 746,740 square-foot commercial Lifestyle Center on 72 acres including retail, restaurants, a health club, movie theaters, office space, and a hotel. In general, a lifestyle center includes attributes that would support an upscale, open-air shopping center development format for quality retail, restaurants, and national specialty chain stores. The project would be developed as a Planned Development (PD) with specific development conditions and standards for future development, as defined in Section 17.45 of the City's Municipal Code. Such conditions and standards relate to architectural design, landscaping, signage, and parking requirements. The proposed PD is intended to provide a unified and visually appealing development for all uses and tenants of the site while allowing variety and flexibility within the defined framework of restrictions. Implementation of the project would require the removal of all existing uses and structures located on-site. The project would require a General Plan land use designation amendment and zoning amendment for the project site.	<b>FIN</b>	
2006021059	City of Corcoran General Plan Corcoran, City of Corcoran--Kings General Plan Update for the City of Corcoran.	<b>FIN</b>	
2006112140	El Dorado Street Widening Project Stockton, City of Stockton--San Joaquin The project proposes to widen El Dorado Street from Mariposa Avenue to the Calaveras River. Each side of the existing roadway will be widened to accommodate an additional northbound traffic lane. Landscaping between the existing curb and sidewalk on both sides of the street will be removed, and new curb, gutter, five-foot sidewalks, and street lighting will be constructed. Intersection improvements at Alpine Avenue, Fulton Street, and Churchill Street will consist of replacing signals and modifying left turn lanes.	<b>FIN</b>	
2007031004	GPA #6, ZCC #13, Map 103-18 Herb Family Enterprises by B&L Anderson Consulting Kern County Planning Department Bakersfield--Kern (a) Amend the Kern River Element of the Kern County General Plan from Map Code 5.5 (max. 1 unit/acre) to Map Code 5.2 (max. 16 units/net acre); (b) a change in zone classification from RF KRC (Recreation Forest-Kern River Corridor) to R-2 KRC PD (Medium-Density Residential-Kern River Corridor-Precise Development). Roberts Lane provides access to the site. Sewage will be met through connections to North of the River Sanitary District #1 and domestic water requirements will be met through connections to Oildale Mutual Water Company.	<b>MND</b>	04/02/2007

2007032009	Bear Valley Village Alpine County Planning Department --Alpine The applicant (Bear Valley Village, LLC and Bear Valley Village II, LLC) is proposing a General Plan Amendment and a zoning change to develop a new pedestrian village and related infrastructure in the town of Bear Valley, to be named Bear Valley Village (Village). The project also includes construction of a new high speed chair lift (Village Lift) from the Village to the Bear Valley Mountain Resort ski area.	<b>NOP</b>	04/02/2007
2007031012	Munch Conditional Use Permit DRC2005-00012 ED06-153 San Luis Obispo County Paso Robles--San Luis Obispo 5,230-square foot winery expansion including a wine processing facility, conversion of structure to barrel storage, loading bay and parking area, wastewater treatment facilities, infrastructure, road improvements, and setback adjustment.	<b>Neg</b>	04/02/2007
2007031013	Proposed Adoption of Rule 67.6.1 (Cold Solvent Cleaning and Stripping Operations) and Rule 67.6.2 (Vapor Degreasing Operations) and Repeal of Rule 67.6 (Solvent San Diego County Air Pollution Control District --San Diego APCD proposes to adopt new Rule 67.6.1 (Cold Solvent Cleaning and Stripping Operations) and new Rule 67.6.2 (Vapor Degreasing Operations) that include new emission reduction requirements for solvent cleaning operations. The proposed new rules will replace existing Rule 67.6 (Solvent Cleaning Operations), which regulates emissions from cold solvent cleaning and vapor degreasing operations. Rule 67.6 was first adopted in 1979 and last amended in 1990. Since then, advances have occurred in low-emitting solvent cleaning technologies and materials that are now being implemented in other California air districts. Such advances are reflected in proposed Rules 67.6.1 and 67.6.2 and would result in reduced emissions of volatile organic compounds, and toxic air contaminants and improved air quality in the region.	<b>Neg</b>	04/02/2007
2007031016	Thorne Road Bridge Replacement Project Monterey County Public Works Department Greenfield--Monterey The proposed project involves replacing the existing Thorne Road low level crossing with a two-lane high level bridge. The new bridge will be constructed on the same alignment as the low level crossing and will be 600 feet long and 44 feet wide with two 12-foot travel lanes with 8-foot shoulders. The bridge will be approximately 14 feet tall at the ends and approximately 19 feet tall in the middle. It will allow unimpeded migration of steelhead through this reach of the Arroyo Seco River. The project is located within an unincorporated area of Monterey County west of the City of Greenfield and south of the confluence of the Arroyo Seco and Salinas Rivers.	<b>Neg</b>	04/02/2007

<b><u>Documents Received on Friday, March 02, 2007</u></b>			
	swimming, water polo, and diving programs of the Departments of Intercollegiate Athletics and Cultural and Recreational Affairs, and would meet the design standards governing competitive collegiate aquatic sports. Project components include a new 52-meter deep-water pool, an approximately 6,000 square foot support facility to provide lockers, showers and related uses, a dive tower, lighting, scoreboard, space to accommodate temporary spectator seating for events, and landscape elements. In order to create a site for the aquatic center, the project would displace two existing tennis courts, and six mini-basketball courts. The project would include replacement of tennis and basketball functions at other locations in the Northwest and Central zones of the campus. The project would be designed to meet the UC-equivalent LEED™ certified green building requirements. The project is consistent with the planning principles articulated in the 2002 Long Range Development Plan. The approximately 12 month construction period is anticipated to begin in January 2008.		
2007032010	12615 McKenzie Road Grading Permit Sacramento County Galt--Sacramento Request for a grading permit to disturb 1.7 +/- acres on property that is 31 +/- total acres, for the construction of a driveway and building pad.	<b>Neg</b>	04/02/2007
2007032011	Tilch Coastal Development Permit Modification and Special Permit Modification (CDP-04-23M/SP-04-25M) Humboldt County Community Development Services --Humboldt A modification to a previously approved Coastal Development Permit and Special Permit to consider the construction of an approximately 1,187 square foot addition to an existing single-family dwelling. Also included is the construction of an approximately 544 square foot covered deck. The septic system which currently serves the existing home is proposed to be replaced. A new septic tank on the north side of the home is proposed to be located within the 100 foot Streamside Management Area setback of an unnamed tributary to a perennial stream on the east side of property. A Special Permit is required to consider granting a reduction of the Streamside Management Area setback to enable placement of the septic tank as well as the proposed addition to the existing home. The Coastal Zone is divided within the property between state and local jurisdiction. A separate Coastal Development Permit was processed by the California Coastal Commission (Permit # 1-06-033) involving the placement of a mound leach field on the east end of the property above an unnamed creek adjacent to Spears Road. A previously approved Coastal Development Permit and Special Permit which authorized the construction of a pond will be modified to include the proposed addition and septic tank expansion. No trees will be removed and minimal grading is expected. A biological report has been prepared and circulated to the Eureka office of the Department of Fish and Game for comments.	<b>Neg</b>	04/05/2007
2007032012	Parcel Map #07-02, J.D. Dominick & Brook Tindall Tehama County Planning Department Red Bluff--Tehama To create one parcel of 1.25 acres and a remainder parcel of 1.36 acres in a RE-B:10; Residential Estates - Special Building Site Combining (10,000 sq. ft.; 1/4 acre minimum) Zoning District.	<b>Neg</b>	04/02/2007

<b><u>Documents Received on Friday, March 02, 2007</u></b>			
2007032013	Robert Foley Vineyards Winery, (P06-01181-UP) Napa County Conservation Development & Planning Department --Napa Approval of a Use Permit to establish a new 30,000 gallon per year winery with:  - +/- 12,350 sq. ft. of winery located inside a cave with primary and secondary access portals; - +/- 7,600 sq. ft. of uncovered crush pad area; - +/- 15,000 sq. ft. of reconstructed access roadways; - Staging and removal of cave spoils from the property; - One full time (one additional employee at harvest); - Two parking spaces; - No visitation or marketing events; - Construction of winery wastewater and sewage systems, requiring a permit; - Improvements to the existing driveway, including widening and surfacing; - Removal of approx. 26 trees; and - Installation of a new 12,500 gallon water tank for fire suppression.	<b>Neg</b>	04/02/2007
2007032014	Mallorca Drainage Improvement Project Morgan Hill, City of Morgan Hill--Santa Clara The proposed project is the realignment and widening of West Little Llagas Creek, on the west side of Hale Avenue roughly between Hillwood Lane and Wright Avenue in the City of Morgan Hill. The project would relocate an approximately 700 foot reach of the creek to the west.	<b>Neg</b>	04/02/2007
2007032015	Adoption of the Local Agency Formation Commission of Santa Clara County's Agricultural Mitigation Policies Santa Clara County Local Agency Formation Commission Unincorporated--Santa Clara Adoption of Agricultural Mitigation Policies. The Policies provide guidance to property owners, potential applicants, and cities on how to address agricultural mitigation for LAFCO proposals and provide a framework to LAFCO for evaluating and processing LAFCO proposals that involve or impact agricultural lands in a consistent manner.	<b>Neg</b>	04/02/2007
2007032016	Use Permit Applications UP-4-03 and UP-7-04, Los Robles Estates, Phase II, by Gary Larsen, RMP, LLC Redding, City of Redding--Shasta The project applicant is requesting approval of use permit applications to develop 90 lots - Phase II of Los Robles Estates, a mobile home community on approximately 24.6 acres located south of Redwood Boulevard. The application also includes a request to encroach into the Boulder Creek Floodplain. The project will result in grading in order to facilitate streets and driveway construction, provide utilities, and create building pads. Some grading encroachment will occur on slopes in excess of 20% to accommodate some building pads, installation of driveway and utility infrastructure, and ensure adequate drainage. The placement of some fill in the floodplain will occur to enable emergency access and street access and utilities infrastructure for the development. The area within the 100-year floodplain will remain undisturbed by grading and result in the preservation of existing protected oak trees and natural vegetation, as well as sensitive habitat. Additionally, this area within the 100-year floodplain will be placed within an open-space easement.	<b>Neg</b>	04/02/2007

	Plan site capacity of 729 students. Construction and operation of the new MVROP facilities would be the responsibility of the FUSD. The construction of the project is currently underway and is expected to be completed in May 2007. The facilities would be located on the southern end of the existing Campus on Blacow Road and Stevenson Boulevard. The total interior building area would be 47,284 square feet (sf). Facility buildings would include 26,390 sf of teaching spaces (19 teaching stations), including classrooms, storage, and offices.

2007031025	Ruben Lugo Minor Subdivision Monterey County King City--Monterey Minor subdivision of an existing 89-acre parcel into two lots of 49 acres (parcel A) and 40 acres (parcel B). The proposed parcel A contains an existing single family dwelling, barn buildings, water tanks, and an abandoned well. The proposed parcel B is vacant, except for an existing well. An existing 30 ft. road easement is located on proposed parcel B and will be extended for access to parcel A.	<b>MND</b>	04/03/2007
2007032018	A Coastal Development Permit for Construction of a Single-family Residence and a Special Permit for Design Review and to Consider Allowing Development within a Humboldt County Community Development Services --Humboldt A Coastal Development Permit and Special Permit for a reduction of the 25' Streamside Management Area (SMA) for a wet area and unnamed tributary to Humboldt Creek. The reduction is requested to facilitate the proposed development of a single-family dwelling near the front of the 6,000 square foot parcel. The proposed single family dwelling is sited +/- 21.5' west from the stream transition line of the western intermittent drainage course/ wet area; as defined by the County's Streamside Management Area system of classification and verified by Alice Berg, a biologist hired to evaluate impacts to the adjacent watershed. A biological report was prepared by Alice Berg & Associates and circulated to the Department of Fish and Game for comments. The report proposes several mitigation measures to insure all potential runoff and pollutants are controlled, eliminated, or captured. Riprap and retaining walls are proposed to be used to clearly distinguish between the sensitive riparian corridor and the rear perimeter of the proposed home site. The report recommends armoring areas where high velocity runoff occurs to reduce the potential for erosion and runoff while helping promote the stabilization of disturbed areas. Grading during the wet season is prohibited.	<b>MND</b>	04/03/2007
2007032019	Big Easy Car Wash American Canyon, City of American Canyon--Napa The proposed project includes the development of the vacant 43,485 sf project site into a full-service carwash facility. 2007032017	<p>Transfer of the Matt Dillon Water Systems to T.U.D. and Formation of Improvement District Tuolumne Utilities District --Tuolumne</p> <p>Tuolumne Utilities District has entered into an agreement with the Matt Dillon Water Company to acquire the company's two water systems, which serve the Curtis Creek Ranch area (approx. customers) and the Wards Ferry Ranches area (approx. 26 customers). The transfer will consist of the purchase of the assets of the Matt Dillon Water Company, but not the company itself. The assets to be transferred include water supply, storage, and distribution systems. TUD's agreement with the Matt Dillon Water Company to acquire the two water systems is conditioned upon the District's formation of improvement districts to embrace each of the water system service areas, and the adoption of surcharges to be imposed upon the parcels within the improvement districts to finance the cost of the acquisition and needed improvements to the two water systems. Additional improvements for the Curtis Creek Ranches service area include expansion of treatment capacity at TUD's existing Monte Grande water treatment plant, construction of a 520,000 gallon capacity water storage tank(clearwell) at the treatment plant, and an interconnection pipeline which will be 8" diameter and 4,350' long and which will extend from the Curtis Creek Ranch service area to the Monte Grande water system.</p>	<b>Neg</b>	04/03/2007
2007032020	<p>Vargas Dublin, City of Dublin--Alameda</p> <p>The proposed project includes annexation of the 4.38 acre site to the City of Dublin and the San Ramon Services District. The development project includes a maximum of 33 dwelling units and a small pedestrian trail near the creek. The project includes a request to change the General Plan and Specific Plan Land Use Designations on the site. The project site currently has two land use designations: Medium-Density Residential (approx. 1.4 gross acres) which permits a density of 6.1 to 14.0 dwelling units per acre, and Medium/High-Density Residential (approx. 3.6 gross acres) which permits a density of 14.1-25.0 dwelling units per acre. The Applicant has proposed a General Plan and Specific Plan Amendment to change the existing land uses to Medium Density to allow the construction of 33 dwelling units on the site (a reduction in the existing density).</p>	<b>Neg</b>	04/03/2007

2005101049	<p>Edinger Avenue Bridge Deck Improvement Project Orange County Huntington Beach--Orange</p> <p>The California Department of Fish and Game is issuing an Agreement Regarding Proposed Stream or Lake Alteration (SAA 1600-2006-0353-R5) to the project applicant, County of Orange, Resources and Development Management Department (P.O.C. Ms. Hualin Hsu-Wingard). The Operator proposes to alter the streambed and banks of Bolsa Chica Channel by replacing and repairing heavily deteriorated 10 piles of Bent No. 15 of the Edinger Bridge. The bridge is approximately 30 feet wide and 300 feet long, with a single travel lane in each direction. The County will replace the deteriorated portions of those piles determined to be heavily deteriorated by employing a "posting" method, which includes splicing new section of wood into the pile in the area of deterioration. The Operator shall not temporarily impact more than 0.046 acre of jurisdictional Channel consisting of rip-rap and no vegetation exist on site. All disturbed portions of the streambed or banks shall be restored to the pre-existing condition or better. Work with mechanical/heavy equipment in flowing water should be minimized. If flowing water is present or is anticipated, sandbags or other suitable barriers should be placed in the watercourse to isolate the work area from the flowing water. All material utilized for the barrier shall be removed from the floodplain of the watercourse upon project completion.</p>	<b>NOD</b>

2004114003	<p>South Bay Salt Ponds Restoration Project Fish &amp; Game #3 San Jose, Fremont, Sunnyvale, Union City, Menlo Park, ...--Alameda, Santa Clara, San Mateo</p> <p>The SBSP Restoration Project encompasses approximately 15,100 acres of former salt ponds located around the edge of the South San Francisco Bay, and, if approved, would be the largest wetlands restoration project on the West Coast of the United States. The project is intended to restore and enhance wetlands in South San Francisco Bay while providing for flood management and wildlife-oriented public access and recreation.</p>	<b>EIR</b>	04/23/2007
2005101117	<p>Rancho El Rivino Specific Plan and Annexation (Formerly Cactus Avenue Specific Plan) Rialto, City of Rialto--San Bernardino</p> <p>The project applicant is YH Cactus, LLC. The purpose of the project is to provide a variety of housing types for the residents of the Inland Empire. The project includes a 165-acre specific plan medium density residential community of up to 726 single-family units with a variety of lot sizes ranging from 4,500 to 20,000 square feet, a 5.3 acre neighborhood park, two pocket parks totaling 3.4 acres, just under one acre of paseos and a half acre for equestrian trails. The proposed plan includes a circulation system designed for pedestrian, equestrian, and vehicular access. The proposed project also includes annexation of the specific plan property into the City of Rialto from the County of San Bernardino, and a City of Rialto general plan amendment to include the specific plan area and to modify land use designation to coincide with the specific plan. The project site is currently within the City of Rialto Sphere of Influence.</p>	<b>FIN</b>	
2005091022	<p>Pacific Coast Office Building San Diego, City of San Diego--San Diego</p> <p>Site Development Permit to construct an approximately 9,845 square-foot, two-story office building on a vacant 4.94-acre parcel. 	requires a conditional use permit for all uses authorized under the ML zone and not otherwise excluded by the qualification. The ML zone is applied to areas where large administrative facilities and light manufacturing and heavy commercial uses of the non-nuisance type are the desirable predominant uses. The use proposed for the two warehouse buildings is that of contractor's yard storage.		
2007031032	Ashley Construction VTTM 63567 EIR Hidden Hills, City of Hidden Hills--Los Angeles The proposed project involves a series of actions that would allow for the future development of 8 single family residences on an approximately 18 acre site. Though the project proposes to construct 8 single family residences, one existing single family residence would be demolished, so the project would result in 7 new residences plus one replacement residence. Future construction would be driven by market demand. The project involves annexation of a 7.8 acre parcel and a Vesting Tentative Tract Map to reconfigure 6 existing parcels into 8 new parcels. The existing lots range in size from 1.4 acres to 7.8 acres with an average lot size of 2.2 acres. The proposed lots would range in size from 1.1 to 3.9 acres with an average lot size of 1.9 acres. Approximately 7.8 acres of the site are currently within the unincorporated Los Angeles County and will require annexation to the City of Hidden Hills. These 7.8 acres are currently within the City's Sphere of Influence.	<b>NOP</b>	04/04/2007

The proposed project requires a General Plan amendment from medium density residential to high-medium density residential and a Change of Zone from RAP, residential airport zone to R-3, multiple-family residential	<b>NOP</b>	04/04/2007
2007032026	Maria Carillo High School Field Lighting Project Santa Rosa City School District Santa Rosa--Sonoma The proposed project consists of adding four 80-foot galvanized steel poles with both 13 lighting fixtures (two poles) and 14 lighting fixtures (two poles) to the existing football field at Maria Carillo High School to allow for use of the field during evening hours. The lighting would be used for football, soccer, and occasional track events. The project location is at the 50 yard line at center field. The four light poles would be situated symmetrically in a square formation surrounding the stadium (set behind the bleachers at approximately the 10 yard line). The lights would be scheduled to be manually switched off at 10:00 PM, to avoid late night use. Construction of the lighting would last 14 to 18 workdays and would be completed over a 4 to 5 week period with heavy equipment operation not to exceed 8 days. The lights would be scheduled to be in place by March 2008.	<b>NOP</b>	04/04/2007

Approximately 3.28 acres will be detached from the Centerville CSD and annexed to the Shasta CSD. This reorganization area is part of the Foxwood Estates Subdivision, approved by the County of Shasta (Tract Map 1890; West Redding Properties, applicants).	<b>Neg</b>	04/05/2007
2007032035	Hayward Paul & Jo Anne Luckey Tentative Parcel Map (TPM-06-20) Siskiyou County Planning Department Montague--Siskiyou The applicants request Tentative Parcel Map approval to divide a 20.59-acre parcel into a 10.3-acre parcel and a 10.29-acre parcel. The project site is surrounded by the Klamath River Country Estates, a subdivision consisting of 2.5-acre lots. The proposed parcels are to be served with on-site water and sewage disposal systems.	<b>Neg</b>	04/05/2007
2007032036	Adoption of the 2002-2007 Housing Element Scotts Valley, City of Scotts Valley--Santa Cruz The project being studied is the comprehensive update of the City of Scotts Valley 2002-2007 Housing Element (proposed Housing Element), one of eight elements of the City of Scotts Valley General Plan. The Housing Element includes a community profile, an analysis of potential constraints, a summary of housing resources, and an evaluation of past accomplishments. These sections provide the basis for the goals, policies, objectives, and programs contained in Chapter 5. It is this chapter that has a binding effect on development in the city. Chapter 5 also requires General Plan text and Map amendments to maintain consistency with the Housing Element and other General Plan Elements. Adoption of the Housing Element, General Plan Text and Map amendments are subject to analysis under the California Environmental Quality Act.	<b>Neg</b>	04/05/2007

2007032037	Jonathan Nichol Tentative Parcel Map (TPM-06-22) Siskiyou County Planning Department --Siskiyou The applicant requests Tentative Parcel Map approval to divide a 26.15-acre parcel into a 15.15-acre parcel and an 11 acre parcel. The site is developed with a greenhouse, barn and domestic well. The property is zoned R-R-B-5. This application would allow the construction of one additional single-family dwelling with rural residential agricultural uses.	<b>Neg</b>	04/05/2007
2007032057	Stanford Wetland Mitigation Project San Mateo County Woodside--San Mateo The applicant requests a Grading Permit to create a new 2.09 acre, seasonal wetland habitat in the southeast portion of a 262.2 acre parcel. The project would involve grading uplands adjacent to San Francisquito Creek, with approx. 11,370 cubic yards of grading. The proposed wetland habitat consists of three basins, approx. 0.43, 0.52, and 1.14 acres in size. The applicant proposes this project to compensate for permanent impacts to jurisdictional habitat resulting from the construction phases of associated off-site projects {the Steelhead Habitat Enhancement Program, (SHEP) within Los Trancos and San Francisquito Creeks and the Sand Hill Road Hotel and Office Development Project in the City of Menlo Park}. No trees of significant size would be removed or inundated.	<b>Neg</b>	04/10/2007
2007031044	Equipment Service Center Caltrans #12 Irvine--Orange Construction of an Equipment Service Center to meet the repair, service and maintenance needs of Caltrans District 12 and surrounding region equipment.	<b>Oth</b>	04/05/2007
1997101065	Effluent Pump Station Annex and Collection System Odor and Corrosion Control Program Orange County Sanitation District Huntington Beach, Fountain Valley, Rialto--Orange On February 28, 2007, the Orange County Sanitation District Board of Directors ("OCSD Board") took the following actions: (1) Revisited its prior January, 2000 approval of a biosolids management contract between OCSD and Shane Magan ("2000 Magan Contract") relating to the beneficial reuse of biosolids at Tule Ranch (a.k.a. Honeybucket Farms) in accordance with the Court of Appeal's holding in County Sanitation District No. 2 of Los Angeles County v. County of Kern, (2005), 127 Cal. App.4th 1544. The Board's approval of the 2000 Magan Contract resulted in the hauling of an additional 26,650 Wet Tons Per Year ("WTPY") of biosolids to Tule Ranch, which corresponded to an increase of approximately 1,105 annual truck trips or approximately six truck trips per day. (2) Approved a biosolids management contract with EnerTech Environmental California, LLC to facilitate the transportation and conversion of biosolids to e-fuel at EnerTech's facility in the City of Rialto. Under the contract, EnerTech would haul and process an average of 200 Wet Tons Per Day ("WTPD") of biosolids at its facility for a term of ten years with four, five year options. This corresponds to approximately eight truck trips per day. (3) Approved a biosolids management contract with Synagro to facilitate the transportation and recycling of biosolids at Synagro's facility at the South Kern Industrial Center. Under the contract, Synagro would haul and process "a minimum of 250 WTPD of biosolids" for composting at the Synagro facility at the	<b>NOD</b>

2005012113	UC Santa Cruz 2005 Long Range Development Plan, Infrastructure Improvements Project, 2300 Delaware Av., Family Student Housing Redevelopment University of California, Santa Cruz Santa Cruz--Santa Cruz The 2300 Delaware Avenue Project consists of redevelopment of an existing University-owned facility, which includes office buildings A and B, and Building C, formerly used in silicon chip manufacture (Building C). Buildings A and B presently provide UCSC administrative office space for 246 persons; Building C is used for passive storage. The project includes interior remodeling of Buildings A and B to provide administrative office space for up to 300 persons, and utility upgrades and interior remodeling of Building C to provide high technology interdisciplinary laboratories for up to 482 persons, for both campus research and potential public/private collaborations. The project was analyzed in the UC Santa Cruz 2005-2020 Long Range Development Plan EIR, which was certified by the Regents of the University of California in September 2006. The Chancellor of UC Santa Cruz has now approved the 2300 Delaware Avenue Project, and adopted findings, overriding considerations, and a project-specific mitigation monitoring plan for the 2300 Delaware Avenue Project.	<b>NOD</b>	
2005012113	UC Santa Cruz 2005 Long Range Development Plan, Infrastructure Improvements Project, 2300 Delaware Av., Family Student Housing Redevelopment University of California, Santa Cruz Santa Cruz--Santa Cruz The project consists of improvements to existing storm water, cooling water, and domestic/fire water infrastructure at numerous locations on the campus, to address existing inadequacies and to remediate erosion and potential water quality problems in campus drainages. Elements include construction of a new cooling tower, replacement of several domestic/fire pipeline segments, and installation of about 1,000 linear feet of new cooling water pipelines, primarily in existing roadways or shoulders. Stormwater improvements will include retrofit of existing drains, installation of features to reduce runoff velocity, and installation of dissipation and infiltration features to reduce runoff volume. The project was analyzed in the UC Santa Cruz 2005-2020 Long Range Development Plan EIR, which was certified by the Regents of the University of California in September 2006.	<b>NOD</b>

2006082127	<p>Approval of the Amendment to the Interim Site-Wide Record of Decision for the Pit 7 Complex at Lawrence Livermore National Laboratory Site 300 Toxic Substances Control, Department of Tracy--San Joaquin</p> <p>The project is the approval of the Amendment to the Interim Site-Wide Record of Decision (ROD) for the Pit 7 Complex, Lawrence Livermore National Laboratory (LLNL) Site 300. Site 300 is a federal facility operated for the U.S. Department of Energy (DOE) by the University of California, and was placed on the Federal National Priorities List in 1990.</p> <p>Site 300 is primarily a high-explosives test facility that supports the LLNL weapons program in research, development, and testing associated with weapons components. During past LLNL operations, a number of contaminants were released to the environment. From 1958 until 1988, debris from explosives tests was disposed in the Pit 7 Complex. The waste placed in the pits included wood, plastic, metal, and debris from tent structures, pea gravel, and exploded test assemblies that were contaminated with tritium and depleted uranium. The landfills periodically release tritium, uranium, and other contaminants to shallow groundwater.</p> <p>The Amendment to the Interim Site-Wide ROD, finalized in January 2007, identifies the preferred cleanup alternative for the Pit 7 Complex. Cleanup of the Pit 7 Complex involves four types of construction activities. These include installation of: a water diversion system; a groundwater treatment facility; wells; and roads. Each type of construction activity is described separately, below. Once construction is complete, the systems would be passive, and only require monthly visits from technicians for sampling and calibration.</p>	<b>NOD</b>

2006111139	Draft EIR for the TCAG 2007 Regional Transportation Plan Tulare County Association of Governments --Tulare The RTP addresses the effects of planned growth and development on the existing and planned transportation system. The resultant analysis will document existing and future year (Year 2030) multimodal transportation system conditions. Modes studied included highways and arterials, public transit, nonmotorized systems, passenger and freight rail, and aviation.  Reference SCH# 2001021049, 2000011089	<b>EIR</b>	04/23/2007
2007011046	Placentia Westgate Metrolink Station Placentia, City of Placentia--Orange The purpose of the project is to provide a Metrolink commuter rail station that meets current and future transit demand and fosters train ridership growth in the region. The project is a key component of the transit-oriented district envisioned in the proposed Westgate Specific Plan (the subject of a separate EIR). The Westgate Metrolink Stop project includes street, railroad track, and pedestrian improvements and other infrastructure improvements, as well as the development of new rail platforms and parking. The project is designed to accommodate a projected 530 boardings and alightings each weekday.	<b>EIR</b>	04/23/2007
2006021135	Maricopa Wastewater Project Maricopa, City of Maricopa--Kern The City of Maricopa will replace the existing sewer collection system, building new sewer lines to serve existing system users and those on septic systems. The project will also build a sewer trunkline, two new sewer ponds, and a portable effluent disposal system.	<b>MND</b>	04/06/2007
2007021010	Proposed Tentative Tract TT-06-067 (Tract 17802) Victorville, City of Victorville--San Bernardino To allow for the development of a 249-lot single-family residential subdivision.	<b>MND</b>	04/06/2007
2007031046	Riverview Condominiums Calexico, City of Calexico--Imperial The project proposes the development of 332 condominium units, four commercial pads, and two single-family residential units on approx. 34 acres. The condominium portion of the project proposes 83 clusters of four units. Conceptual architecture plans for the condominiums include two-story wood buildings with stucco finish and Spanish roof tile. The project also proposes the construction of an on-site recreation/community area consisting of a pool, clubhouse, covered patio, toddler-play area, and two basketball courts in the central portion of the project site. The project would include construction of a sidewalk along the northern frontage of the project site. The sidewalk would be extended approx. from the westerly property line of the proposed project site to the easterly property line. The proposed sidewalk would include a curb and gutter and would be built per City of Calexico December 2005 Design Procedure and Improvement Standards. For security purposes, the residential portion of the project site shall have fencing around the property boundary and gates would be opened only by lock cards.	<b>MND</b>	04/06/2007

2007032043	<p>Use Permit 06-038, Reclamation Plan 06-001, and Use Permit 06-031 Shasta County Anderson--Shasta</p> <p>The request is for the approval of a Use Permit and Reclamation Plan for a proposed, approx. 15 year extraction operation to remove approx. 1,700,000 tons of sand, gravel, cobble, and loam from approx. 39 acres of the 78.9 acre site. Processing to occur on-site includes washing, crushing, and screening. A 7,000 sq. foot shop will be constructed to be used for storage and maintenance of equipment. A temporary caretaker's residence will be installed adjacent to the shop building. The site will be reclaimed as two small lakes. The applicant has also requested approval of a Use Permit for a commercial wakeboard and waterski park. The lakes will be connected to and used as part of and in conjunction with a previously approved but not-yet-operational wakeboard and waterski park on the adjoining parcel to the south. No improvements beyond the shop and lakes are proposed for this use as the previously approved improvements on the southern parcel will serve the use on the subject parcel. Any future improvements requested on the subject parcel and associated with the wakeboard and waterski park will require an amendment of the Use Permit.</p>	<b>MND</b>	04/06/2007
2007032045	<p>Use Permit 06-035-McCombs Shasta County --Shasta</p> <p>The request is for a dog kennel for 15 dogs. The project would include the construction of adequate kennel houses, kennel runs, fencing, and landscaping. The kennel area would encompass approx. 420 sq. feet, a small day run, and a dog-grooming room. The project site is flat. There are no drainage features present. Vegetation is comprised of a small number of scattered oak trees, landscape trees and plants, and open grassy areas. Wildlife present includes common birds and rodents. The current use of the property is residential. The property is fenced and cross fenced. There are three irrigated pasture areas. Uses adjacent to the project site are residential.</p>	<b>MND</b>	04/06/2007
2007032049	<p>Conditional Use Permit #2006-0013, Simspon Lane Agricultural Reclamation Yuba County --Yuba</p> <p>A proposal to mine existing sand and replace with fill suitable for agriculture. The "AE-40" (Exclusive Agriculture, 40 acre minimum parcel size) Zoning District allows surface mining when the reclamation is for agricultural production with the issuance of a Conditional Use Permit. Orchard Growers, LLC, (Applicant) proposes to remove the top 20-35 feet of sand and replace it with imported soils to improve the site's agricultural productivity. The sand will be removed and delivered to Teichert Aggregate's Marysville and Hallwood plant sites, which will supply the topsoil to be returned to the project site. The proposed agricultural reclamation would occur in three phases totaling approx. 73 acres of the project site over the course of 10 to 20 years.</p>	<b>MND</b>	04/06/2007

<b><u>Documents Received on Friday, March 09, 2007</u></b>			
2006052138	Conover General Plan Amendment Plumas County Planning Department Quincy--Plumas The proposal is to amend the General Plan designation of a 12.62 acre portion of the 20.67 acre site from Light Industrial to Single-Family Residential.	<b>EIR</b>	04/23/2007
2006101065	McFarland Redevelopment Project McFarland, City of McFarland--Kern Draft EIR for the proposed McFarland Redevelopment Project	<b>EIR</b>	04/23/2007
2006121040	Prestige Villas Hawthorne, City of Hawthorne--Los Angeles The Prestige Villas project involves the construction and operation of 128 single family homes on an approximately 8-acre site in the City of Hawthorne.	<b>EIR</b>	04/23/2007
2007034002	Graton Rancheria Casino and Hotel National Indian Gaming Commission Rohnert Park--Sonoma The Draft Environmental Impact Statement (EIS) has been prepared by the NIGC to address the environmental effects of approving a management contract between the Tribe and SC Sonoma Management for the purpose of operating a casino-hotel resort on land taken into trust in carrying out the Graton Rancheria Restoration Act.	<b>EIS</b>	05/14/2007
2003071003	Santa Ana River and Mill Creek Water Rights Application and Groundwater Management Plan San Bernardino Water Conservation San Bernardino--San Bernardino SBVWCD proposes to: 1) obtain a permit from SWRCB to appropriate water from the Santa Ana River and Mill Creek consistent with SBVWCD's existing rights and practices, 2) establish an updated operations plan for ongoing groundwater recharge activities, and 3) obtain an access agreement if necessary for ongoing recharge activities in the context of flood operations of Seven Oaks Dam.	<b>FIN</b>	
2006072047	Anderson Bank Building Window Project Davis, City of Davis--Yolo Install display windows beneath the four arched windows (ground floor) on the south and east building elevations. Davis City Landmark Building constructed in 1914.	<b>FIN</b>	
2006091137	Naval Base Point Loma (NBPL) Installation Restoration Site 1 Toxic Substances Control, Department of San Diego--San Diego The proposed removal action at Site 1 addresses the removal of automobile shredder residue (ASR) and non-hazardous construction debris disposed of as canyon fill at the site during the 1970s. Elevated concentrations of metals, dioxins, and polychlorinated biphenyls (PCBs) found in the ASR pose an imminent and substantial endangerment to the flora and fauna of the Point Loma Ecological Conservation Area (PLECA), waters of the Pacific Ocean, and human health. The proposed removal action will substantially eliminate the identified pathways of exposure to hazardous substances and contaminants of concern to human and ecological receptors, the PLECA, and waters of the Pacific Ocean.	<b>FIN</b>

2007031057	GPA #2, ZCC #24, Map 103-25 Kern County Planning Department Bakersfield--Kern (a) Amend the Land Use Element of the Metropolitan Bakersfield General Plan from Map Code SR (Suburban Residential, Max. 4 Units/Net Acre) to Map Code LMR (Low Med. Density Residential, Max. 10 Units/Net Acre); (b) amend the Metropolitan Bakersfield Circulation Element to delete the Brentwood/Mills alignment from Niles Street to Breckenridge Road; (c) a change in zone classification from E (1/2) RS (Estate Residential Min 1/2 Acres-Residential Suburban) to R-1 (Low Density Residential, Max. 10 Units/Net Acre); (d) Tentative Tract 6687, proposing to divide a 9.46 acre site into 36 lots for residential use and a sump lot; five limited design variations; a development variation to the Land Division Ordinance to allow lot depth less than 100 feet.	<b>MND</b>	04/09/2007
2007031059	Town of Yucca Valley Bus Transfer Facility Morongo Basin Transit Authority Yucca Valley--San Bernardino The MBTA proposes the construction and operation of a bus transfer facility in the Town of Yucca Valley California. The transfer facility would provide a permanent common meeting point for buses and would help facilitate the transfer of passengers. Buses would enter and depart the facility from Yucca Trail. This street is moderately busy with an existing 100-foot right-of-way. The bus transfer facility is anticipated to comprise an eight bus bay transit center, pedestrian plaza, bus shelter, planters, a restroom for drivers that would use a septic tank, informational kiosk, newspaper racks, drinking fountain, and a retail (coffee) cart. In addition, a new sidewalk and curb and gutter along Yucca Trail would be provided as part of the project. The facility would accomodate passengers only and would not provide any bus maintenance, washing, or refueling.	<b>MND</b>	04/09/2007
2007031062	Valley Atwater "Schelby" School Merced County Office of Education Support Services Livingston--Merced The Merced County Office of Education is proposing to construct a Community School complex serving 378 students on a 6.9-acre site in Merced County, adjacent to the existing Schelby School.	<b>MND</b>	04/09/2007
2007031063	Los Osos High School Sports Facilities Lighting Project Chaffey Joint Union High School District Rancho Cucamonga--San Bernardino The City of Rancho Cucamonga (City) has partnered with the Chaffey Joint Union High School District's (District) to install lighting standards at existing sports fields. The proposed lighting would be installed within the existing basketball courts, tennis courts, and combined baseball/soccer fields. All of these sports facilities are currently in operation. Construction of the project includes drilling holes for the installation of the lighting standards, and anchoring the lighting standards with concrete. In addition, trenches would be necessary to run electrical conduits from the various connection points to the light fixture controllers.	<b>MND</b>	04/09/2007

2004051039	Robertson Ranch Master Plan-EIR 03-03 Carlsbad, City of Carlsbad--San Diego Request for approval of a Site Development Plan (SDP) to allow for the construction of an affordable housing project consisting of 78 units and one leasing office within Planning Area 15 of the Robertson Ranch Master Plan. The project was described in the Program EIR for the Robertson Ranch Master Plan and the proposed activities will have no effects beyond those analyzed in the Program EIR.	<b>NOD</b>	
2006041086	Planned Development Regulation Amendments - ZCA 05-02/LCPA 05-07 Carlsbad, City of Carlsbad--San Diego An amendment to the standards of the Planned Development (CMC 21.45), and Beach Area Overlay Zone (CMC 21.82) chapters of the Carlsbad Zoning Ordinance to facilitate the development of high quality residential projects consistent with the residential density policies of the Carlsbad General Plan.	<b>NOD</b>	
2006072084	Lode Star: TTM 36-240, UPA 2006-08, DZA 2006-02 Mammoth Lakes, City of Mammoth Lakes--Mono The project proposes to construct 45 Residential Condominium units for quarter share fractional ownership including 2 1-bedroom units, 28 2-bedroom units, and 15 3-bedroom units, two underground parking levels with 103 spaces, and common interior recreation space. The application includes a proposed amendment to the Lodestar Master Plan to allow a for 17 feet increase in building height from the current maximum allowed 47 feet, and a reduction in the front yard setback from 100 feet to 30 feet, and 10' side yard setbacks on the north and south sides of the property.	<b>NOD</b>	
2006091075	California Men's Colony Potable Water Distribution System Upgrade Corrections and Rehabilitation, Department of San Luis Obispo--San Luis Obispo The proposed project would upgrade the existing Men's Colony water distribution system; this system supplies domestic and fire service water to the state prison, the Camp, Questa College, the County Administrative yard, and related public facilities. The project will replace and/or up-size approximately 118,500 linear feet of the existing water distribution system. The project also includes installation and/or improvement of various appurtenant water distribution facilities such as pumps, on-line storage reservoirs, fire hydrants, and telemetric equipment. The project does not involve the extension of water service to new facilities not currently on this system; this is an infrastructure project to replace water delivery facilities that are over 50 years old and in urgent need of repair.	<b>NOD</b>	
2007039008	SAA No. R1-07-0011 Redding, City of Redding--Shasta The project proponent will extend an existing culvert approximately 75 feet and place fill material into approximately 0.011 acres of ephemeral and 0.006 acres of intermittent stream habitat.	<b>NOD</b>

2007011020	San Jacinto Agricultural In-Lieu Water Supply Eastern Municipal Water District San Jacinto, Unincorporated--Riverside Eastern Municipal Water District (EMWD) proposes to install approximately 10,775 linear feet of 24-inch recycled water pipeline to deliver recycled water to two dairy farms. The recycled water will be used for on-farm irrigation in exchange for reductions in groundwater pumping from the San Jacinto groundwater basin that is currently in a state of overdraft. More than half of the groundwater being pumped from the San Jacinto subbasin is being used for agricultural irrigation, the water table levels have dropped, and some wells have gone dry. The proposed recycled water pipeline will reduce groundwater pumping in the San Jacinto subbasin and help stabilize the subbasin.	<b>FIN</b>	
2007031074	Pollock Residence: 23401 Mulholland Highway Calabasas, City of Calabasas--Los Angeles The proposed project involves the construction of an approx. 9,300 square foot, two story, single family residence with an approx. 720 square foot, four car, detached garage, and a second story 720 square foot guest unit above the garage, on an approx. 289,534 square foot (about 6.19 Acre) lot. The proposed project also includes the construction of a swimming pool and an approx. 815 foot long driveway with a drop-off/ turnaround area and surface parking on either side of the garage. The project includes site landscaping with native and non-native ornamental vegetation along the length of the driveway and in the general vicinity of the structures.	<b>MND</b>	04/11/2007

	accommodate a maximum of 4,000 Holstein milk cows, 600 dry cows and 2,650 heifers as support stock. At full development a total of 5,590 animal units in a facility covering approximately 160 acres of the 1,026-acre project site.		
2007031069	Formation of Wiseburn Unified School District State Board of Education, California El Segundo, Hawthorne--Los Angeles The proposed project involves a change of local government structure from separate elementary and high school districts to one unified district (i.e., the formation of the Wiseburn Unified School District to serve grades K-12). The California State Board of Education (SBE) will decide whether to adopt a resolution approving the petition to form the Wiseburn Unified School District through the unification of the existing WSD (serving grades K-8), which is comprised of three elementary schools (grades K-5) and a middle school (grades 6-8), with the corresponding portion of the Centinela Valley Union High School District (CVUHSD) within its boundaries. However, for purposes of CEQA, it is reasonably foreseeable that a high school would be developed, either through new construction or reuse of an existing facility. The new high school would be developed to serve students (grades 9-12) in the new district and could permit students who reside outside the district to attend the school (i.e., interdistrict transfer students). Enrollment capacity, which would be established by the future board of the new district, could range from 600 to 1,000 students (25 to 42 classrooms).	<b>NOP</b>	04/11/2007

2007032078	Sterling Chateau Unit #5 Vacaville, City of Vacaville--Solano Subdivision of 78 lots on 18.3 acres, including infrastructure improvements and the construction of homes. 6 house plans proposed. Consistent with low density of our range and design standards for new residential neighborhoods.	<b>Neg</b>	04/12/2007
2006041085	Coachella Valley Stormwater Channel Bacterial Indicators TMDL, Basin Plan Amendment, CEQA Checklist Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert Indio--Riverside Total Maximum Daily Load (TMDL) for the Coachella Valley Stormwater Channel to control sources of loading of bacterial indicators into the Coachella Valley Stormwater Channel.	<b>Oth</b>	04/11/2007
2006092112	Delta DPA Capacity Increase Substation Project Public Utilities Commission Antioch--Contra Costa PG&E proposes to construct a three-bank 230/21 kV distribution substation on a 5.1-acre site in the City of Antioch. In addition, the project would include a new transmission tower in an existing transmission right-of-way and a temporary access road from the existing southern end of Heidorn Ranch Road to the proposed substation site. The temporary access road would require a temporary bridge over Sand Creek.	<b>NOD</b>	
2006122082	University of California Lick Observatory Vegetation Management Project University of California, Santa Cruz --Santa Clara The proposed project is a vegetation management program to mitigate the wildfire hazard at the University of California's Lick Observatory at Mount Hamilton. The project will involve targeted brush and tree thinning using hand-operated equipment on. The University submitted an application to the Federal Emergency Management Agency (FEMA) in February 2005 for a grant to fund the proposed project. Final grant approved from FEMA is pending an environmental review of its action under the National Environmental Policy Act (NEPA). The brush and tree thinning would affect a total of approximately 48 acres of the 3,027-acre Lick Observatory property, in approximately 35 separate vegetation management units.	<b>NOD</b>	
2006122095	Minnow Avenue Parking Facility (PDSD T20060685) Placer County Planning Department --Placer 21 parking stall facility in Kings Beach utilizing a parcel that was acquired by the Placer County Redevelopment Agency.	<b>NOD</b>	
2006122096	Salmon Avenue Parking Facility (PDSD T20060649) Placer County Planning Department --Placer 22 parking stall facility in Kings Beach utilizing a parcel that was acquired by the Placer County Redevelopment Agency.	<b>NOD</b>

<b><u>Documents Received on Tuesday, March 13, 2007</u></b>			
2007011020	<p>San Jacinto Agricultural In-Lieu Water Supply Eastern Municipal Water District San Jacinto--Riverside</p> <p>Eastern Municipal Water District (EMWD) proposes to install approximately 10,775 linear feet of 24-inch recycled water pipeline to deliver recycled water to two dairy farms. The recycled water will be used for on-farm irrigation in exchange for reductions in groundwater pumping from the San Jacinto groundwater basin that is currently in a state of overdraft. More than half of the groundwater being pumped from the San Jacinto subbasin is being used for agricultural irrigation, the water table levels have dropped, and some wells have gone dry. The proposed recycled water pipeline will reduce groundwater pumping in the San Jacinto subbasin and help stabilize the subbasin.</p> <p>The proposed pipeline will connect to an existing pipeline at the southeast corner of Warren Road and Ramona Expressway and cross to the north side of the Expressway where it will run parallel to it, extending easterly approximately 2,300 feet to an existing dirt roadway. The pipeline will then extend north within existing dirt roads to the San Jacinto River and potentially traverse the River in a northerly direction. Upon completion, the project will supply recycled water to two dairy farms for on-farm irrigation use thereby reducing the need for groundwater pumping and its potential adverse affect upon the groundwater basin.</p>	<b>NOD</b>	
2007011116	<p>San Joaquin Marsh Campus Project Irvine Ranch Water District Irvine--Orange</p> <p>The objective of this project is to optimize utilization of the current facilities without altering the character of the campus. Construction of the Marsh Campus improvements includes the re-configuration of the three historical houses, construction of an "open air" classroom and storage area, improvements to the campus landscape, and improvements to the drop-off area. In addition, the project would include expansion/upgrading of the interim parking lot. Finally, the existing storm water pump station would be enlarged and upgraded to handle a 100 year storm event.</p>	<b>NOD</b>	
2007012057	<p>Thunder Valley Casino Parking (PDSC T20060813) Placer County Planning Department Rocklin--Placer</p> <p>Proposed to construct a temporary area for over-flow parking during high-volume holidays or events at the casino.</p>	<b>NOD</b>	
2007021029	<p>San Diego Symphony Summer Pops, Embarcadero Marina Park San Diego Unified Port District San Diego--San Diego</p> <p>The Board of Port Commissioners agreed to modify the existing project description analyzed in the 1993 Subsequent MND (SCH# 1990010787, UPD #83356-MND-211, Port Clerk Document #29911) as follows: (1) the Symphony's Summer Pops concert series will increase from a 17-week seasonal series to a 6-month seasonal series, commencing in April 2007 and ending in October 2007; (2) the total amount of concerts allowed in the season shall be decreased from 85 to 37 concerts, with 26 of these concerts conducted by the Symphony and 11 concerts conducted by Viejas Entertainment; (3) the evening concert series shall be held from 7:00 pm - 10:00 pm, with the exception of a total of four concerts concluding no later than 10:30 pm; (4) Viejas has indicated that they will limit their performances to acts that do not include hard rock-and-roll bands. Viejas has</p>	<b>NOD</b>

	indicated that the bands will include softer rock, pop, jazz, acoustic, and country music; (5) parking spaces for the concert series would be accommodated at the following parking facilities, some of which would require shuttle services: the 1,900 Convention Center Parking Facility; the 900-space Lane Field parking lot at the northwest corner of Pacific Highway and Broadway; and the 1,900 space parking structure at the corner of Harbor Drive and 8th Avenue; (6) the speakers at the venue will be rotated 10 degrees toward the Convention Center per the modeling performed in the Eilar Associates noise report; (7) five symphony concerts and all Viejas concerts will be monitored for sound levels both on site and off site. The maximum sound level allowed is 95 dBA at the "Front of House" mix position, except for a 15 minute segment; (8) exceeding the 95 dBA noise limit or the curfew restrictions will be subject to increasing fines: \$5,000 for the first violation; \$10,000 for the second violation; and \$15,000 for a third violation; (9) three violations of the noise limit or the curfew will trigger a return of the Tideland Use and Occupancy Permit to the Board of Port Commissioners for reconsideration of the TUOP; (10) the Port will institute an enhanced "hotline" with a reporting mechanism to document and log all calls throughout the concert season and to respond to complaints.		
2007038111	Core Penetration Testing on Roaring River Distribution System Levees in Suisun Marsh Water Resources, Department of Fairfield, Suisun City--Solano Core penetrations will be conducted one per mile for a total of about 40 tests at a depth of 100 feet and a diameter of 2.2 inches. The top five feet of the penetration test will be backfilled with grout. All work will be conducted on the levee crown and there will be no material disposal.	<b>NOE</b>	
2007038112	Annual Maintenance of DWR Flood Forecasting Stream Gaging Station Water Resources, Department of -- The purpose of the proposed project is to maintain gaging stations in a condition which allows safe and accurate flood forecasting data collection. The proposed project involves two activities: * Continued management of vegetation within a 20-25 foot wide strip below bridges associated with flood forecasting stations using hard tools (chainsaw, backpack sprayer, and weed-eaters). * Minor vegetative clearing around gage houses, catwalks, and access trails.	<b>NOE</b>	
2007038113	Group 3 Municipal Service Reviews Tulare County Local Agency Formation Commission Exeter, Lindsay, Porterville--Tulare Government Code Section 56430 requires LAFCO to conduct a Municipal Service Review (MSR) of all cities and all special districts in the County that provide municipal services. MSRs are required prior to the establishment and update of Spheres of Influence (SOIs). Government Code Section 56430 requires LAFCO to conduct a MSR of the municipal services provided in the county and prepare a written statement of its determinations with respect to each of the following: Infrastructure needs or deficiencies, Growth and population projections for the affected area, Financing constraints and opportunities, Cost avoidance opportunities, Opportunities for rate restructuring, Opportunities for shared facilities, Government structure options, including advantages and disadvantages of consolidation or reorganization of service providers, Evaluation of management efficiencies, Local accountability and governance.	<b>NOE</b>

2007038114	Rattler Trail Revegetation Project Parks and Recreation, Department of Gorman--Los Angeles This revegetation project is in conjunction with a 2003 Resource Protection Boundary Fence project. Hungry Valley is proposing a five year project to revegetate areas that are now protected by a resource boundary fence along Rattler Trail. Behind the fenced area, there are areas denuded of vegetation and fiber rolls need to be placed back in the area to stabilize the slope and bring the area back to its native state.	NOE	
2007038115	Immediate Public Use Project Parks and Recreation, Department of --Monterey Repair existing infrastructure and install new signs and other small facilities to enable public use of Fort Ord Dunes State Park. The infrastructure repair and installation implement objectives described in the park initial Public Use Access Management Plan and include the following: 1. Repair an existing asphalt parking lot to be used by visitors as a parking lot for coastal access. 2. Designate an existing un-surfaced beach access service road as a pedestrian trail for public access from the parking lot to the beach. 3. Build a temporary at-grade observation area west of the parking lot to provide bluff-top views of Monterey Bay. 4. Install gates and interpretive, directional and regulatory signs to create a safe and convenient site for public use.	NOE	
2007038116	Phase II Assessment at Garnet Mine Site Fish & Game Eastern Sierra-Inland Deserts Region Palm Springs--Riverside Approximately 11,000 tons of stockpiled debris material believed to contain Class 4 base, fill sand, and aggregate chips exist on the Applicant's Garnet Quarry facility on the Coachella Valley Water District's (CVWD) property within the Whitewater River. This material has existed prior to the Applicant's purchasing of the facility in 1992. The Applicant is proposing to excavate ten (10) point locations from the debris piles in order to obtain data about their composition in an approximate 4-5 acre of the property with a backhoe.	NOE

2007031077	Water Treatment Plant Improvements Springville Public Utility District --Tulare The Project consists of the installation treatment process improvements at the District's existing water treatment plant and the construction of a permanent intake structure at the Tule River and a connecting pipeline and appurtenances.	<b>Neg</b>	04/12/2007
2007031078	Sutter Street Lift Station Replacement and Force Main Project Earlimont Utility District --Tulare The proposed project is to replace the existing 30 year old duplex lift station with a new duplex lift station.	<b>Neg</b>	04/12/2007
2007031079	Verdemont Water Infrastructure Project San Bernardino Valley Municipal Water District San Bernardino--San Bernardino The City of San Bernardino Municipal Water Department (CSBMWD) proposes to improve Verdemont area water infrastructure to meet the demands of existing, improved and entitled development. New development has been approved and is being constructed in the Verdemont Area pressure zones (2100 and 2300) that will require additional water availability. The Department is mandated to provide water to entitled developments. The proposed project will connect existing water supplies to new pump stations and a reservoir (up to 5 million gallons storage) designed to provide the higher pressure zones with sufficient capacity to meet projected need. Under existing conditions, the 2300 Pressure Zone depends upon a hydro pneumatic pumping station that is subject to maintenance problems and expensive to operate. The Verdemont Improvements would provide gravity fed water supply to the 2300 Pressure Zone that is more reliable and less expensive than the existing system and would also increase the reliability of water service by providing redundancy within the existing system such that water service does not	<b>Neg</b>	04/12/2007

	treatment plants planned to be implemented over the next 20 years. These improvements include new, replacement, and rehabilitated wastewater collection facilities, including pipelines, lift stations and appurtenant structures; expansion of portions of the primary treatment plant at Sutter Avenue and the secondary treatment plant at Jennings Road; elevation and flood protection of facilities at the primary treatment plant, a new outfall connecting the primary treatment plant to the secondary treatment plan; and advanced treatment and additional disinfection at the secondary treatment plant.		
2006062023	Cohasset Road Widening Project, City of Chico, Butte County, CA Chico, City of Chico--Butte The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0347-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Chico.	<b>NOD</b>	
	Project activities include the widening of Cohasset Road from two to four lanes from just north of Sycamore Creek to Ryan Avenue, replacement of the storm drain outfall at Sycamore Creek, repair/raise the levee on the north side of Sycamore Creek, fill and culvert minor drainages and the replacement of the existing bridge at Sheep Hollow Creek.		
2006072074	Proposed K-8 School Site, 4251 Orwood Road, Knightsen Knightsen Elementary School District --Contra Costa The Knightsen Elementary School District (KESD) has an immediate need to construct a new elementary school (K-8) to accommodate population growth (due to new housing) in the area. The proposed school site is a 16.35-acre portion of a larger 61.8 property and is assigned APN 015-170-008. In negotiations between the property owner or their real estate agent and KESD the relevant parties have decided that the proposed school site would be located on the southwestern portion of the 61.8-acre parcel. It is anticipated that the proposed school would likely have an eventual student enrollment of about 650-700 students. This student population will be derived from the influx of homebuyers moving into the Knightsen School District area. Typical school buildings and uses all include classrooms, administrative offices, playgrounds, library, parking (for teachers and staff, visitors), internal circulation roads, and landscaping. The buildings will be one-story, wood and concrete frame buildings.	<b>NOD</b>	
2006122051	Boardman Canal Pipeline Maintenance Project Placer County Water Agency --Placer PCWA is proposing to repair a 100-foot-long segment of the Boardman Canal system. This proposed maintenance project involves installing an approximately 100-foot-long segment of a new 30-inch pipeline, removing the existing Boardman Canal Pipeline, and guniting a 100-foot-long section of the Boardman Canal. PCWA is proposing to conduct this maintenance activity between June and November 2007. The maintenance work would require approximately four weeks.	<b>NOD</b>

2006012043	East Shore Wastewater Improvement Project Marin County --Marin The proposed project has two primary elements: (1) construction of a community wastewater system to replace existing individual septic systems for up to 38 currently developed properties in the community wastewater system to replace existing individual septic systems for up to 38 currently developed properties in the community of Marshall; and (2) formation of an onsite wastewater management district to provide ongoing inspection, maintenance and monitoring oversight for the proposed Marshall community system as well as for the remaining onsite wastewater systems serving other existing developed properties in the project in the project area.	<b>FIN</b>	03/26/2007
2005111104	Conditional Use Permit 11, Map 121; Exclusion from Agriculture Preserve No. 10 Kern County Planning Department --Kern Build a 16-acre private lake which will measure 2,400 feet in length, 300 feet in width, and 8 feet deep.	<b>MND</b>	04/13/2007
2007031081	Tentative Tract 6922 McFarland, City of McFarland--Kern The project requires a General Plan Amendment, Rezoning from A-1 to R-2-PD and Subdivision of the 16.74-acre parcel into 91 individual lots. The project will include the development of approximately 91 single-family residential units.	<b>MND</b>	04/13/2007
2007031082	Plaza Amistad Santa Paula, City of Santa Paula--Alameda Proposed three-story 151-unit residential condominium and apartment development, with community center and subterranean garage on three 2-acre vacant residential lots (approx. 6.48 acres total). The parcels are located in the city of Santa Paula at 210 W. Santa Barbara St. The three existing parcels would be voluntarily merged to create two new parcels. Parcel 1 is proposed to be 3.27 AC. and will include 6.4 airspace condominiums. Parcel 2 is proposed to be 3.21 AC. and will include an apartment complex containing 8.4 dwelling units. A community center containing 3 apartment dwelling units, and a common open space park area. The project site is currently vacant and zoned R-4 high density multi-family residential. The applicant is seeking a rezone to add a planned development (PD) overlay zone to the existing R-4 zoning on the property. Development of the property will be compatible with existing neighborhood style and scale.	<b>MND</b>	04/13/2007
2007031089	Line Section 111 Washout Repairs Colorado River Board Palm Springs--Riverside Santa Fe Pacific Pipelines Partners, LP. (SFPP), an operating company of Kinder Morgan Energy Partners, LP. (KMEP), owns and operates a 20-inch diameter pipeline, Line Section (LS) 111, which transports petroleum products between Colton, California, and Phoenix, Arizona. LS 111 crosses the San Geronio River near the intersection of interstate 10 and State Highway 111 in the vicinity of the City of Palm Springs, California. Heavy storm water flows in 2004 undermined the soil cover over the pipeline in two locations leaving the line exposed. SFPP/KMEP is proposing to re-cover the exposed areas and install permanent structures that will protect the pipeline from erosion caused by future storm events.	<b>MND</b>	04/13/2007

2007032079	<p>CYA Phase II Demolition California State University Trustees Sacramento--Sacramento</p> <p>The proposed project is the demolition of 23 former CYA structures known as Phase II of the demolition project. The project site consists of approximately 25 acres formerly accommodating the CYA detention facility. The project includes the removal of 23 structures within Phase II-A. Pavement, slabs, foundations, security fencing and underground utilities shall be removed during Phase II-B.</p>	<b>MND</b>	04/13/2007
2007032082	<p>TM 06-1426 El Dorado County --El Dorado</p> <p>The Rancho Dorado Tentative Subdivision Map was previously approved by the Planning Commission on November 2, 1993, along with a recommendation for a zone change to rezone the property from Estate Residential Ten-acre (RE-10) to Single Family Residential (R1) and Open Space (OS). The Board of Supervisors continued action on the rezoning and tentative map to November 23, 1993, directing staff to explore a mechanism to establish a mitigation fee that could be appended to the project which would address impacts on Highway 50. Conditions were modified by staff, and the Board approved the Project on November 23, 1993, subject to 55 conditions. Assembly Bill 771 was approved on May 14, 1996, which automatically extended the expiration date to November 23, 1997. Since November 1997, several time extensions have been granted to the project, and the Tentative Map is again under consideration with the El Dorado County Planning Services.</p>	<b>NOP</b>	04/13/2007
2007032084	<p>New Main Kitchen and Remodel Existing Satellite Serving Kitchens and Dining Rooms Mental Health, Department of Napa--Napa</p> <p>The proposed project consists of the construction of a new 29,000 square foot (sq ft) single story Main Kitchen replacement facility and the renovation of 10 existing satellite serving kitchens and dining rooms (totaling approximately 51,000 sq ft). Construction of the new kitchen would include earthwork, underground utilities, concrete slab on grade, a 48-inch high loading dock with overhead coiling doors, a wood and steel frame structure, an overhead fire sprinkler system, exterior cement plaster wall finish, and a standing seam roof. Special features included as part of the new Main Kitchen Facility are new kitchen equipment to support the cook/chill system, flooring, acoustical ceilings, ceramic tile wall finishes, independent mechanical system, a security system and high capacity food storage racks. The project would require compliance with the Office of Statewide Health Planning and Development (OSHDP). Construction of the new main kitchen would require demolition of five structures (Building 151, 152, 153, 154 and 155) that may be contributors to the Napa State Hospital historic district that is eligible for listing on the NRHP and CRHR. Satellite kitchen improvements include new cook/chill compatible kitchen equipment, improved interior finishes of the floors, walls and ceilings, refurbishing existing glazing and electrical and mechanical upgrades. Demolition work would consist of asbestos and lead abatement and removal of existing finishes and kitchen equipment. The purpose of the proposed project is to increase efficiencies in the food preparation and serving process. The proposed project would not result in the increase of patients or staff at the hospital.</p>	<b>NOP</b>	04/13/2007

<b><u>Documents Received on Thursday, March 15, 2007</u></b>			
2007031083	Quail Meadows Tentative Map Encinitas, City of Encinitas--San Diego The project proposes a 40-lot subdivision and development of 34 single-family detached homes.	<b>Neg</b>	04/13/2007
2007031084	Waldsmith General Plan Amendment San Luis Obispo County San Luis Obispo--San Luis Obispo Request by James Waldsmith for an amendment to the San Luis Obispo Area Plan of the Land Use Element by changing the land use category on an approximately 20-acre site from Agriculture to Residential Rural, with a planning area standard limiting the minimum parcel size to 10 acres. The site is located on the east side of Davenport Creek Road, approximately one-half mile south of Buckley Road, south of the City of San Luis Obispo. The site is in the San Luis Obispo planning area.	<b>Neg</b>	04/13/2007
2007031085	Lloyd - General Plan and Zoning Amendments Paso Robles, City of Paso Robles--San Luis Obispo Project consists of redesignating and rezoning property from R-1 to R-2 (MULA-Family)/RMF-8 with a resort lodging overlay (R/L).	<b>Neg</b>	04/13/2007
2007031086	Well Test and Development Program Project Idyllwild Water District --Alameda Recent drought conditions in the Idyllwild area have reduced the Idyllwild Water District's well production such as that the District has determined it is necessary to locate additional well sites to maintain adequate public water supplies. To identify locations for new wells that have the greatest potential to produce significant quantities of water without interfering with existing wells, the District evaluated geologic literature and the mapping of sedimentary materials in the area. The District also had an electro-seismic survey, or National Water Survey (NWS), conducted at each test well site. Based on the data obtained from the field NWS and the literature review, including geologic comparisons and the known yield of existing wells, two test well sites were selected. The proposed project is the drilling of two test wells, at two separate locations, in Idyllwild to evaluate the potential water production capacity at each site. The test well locations have been selected based upon water bearing potential and permission to drill on the property only. The results of the test wells will be used in the consideration of future water production wells that would be evaluated as a discrete or separate action under CEQA.	<b>Neg</b>	04/13/2007

	pipeline at the intersection of Barton Street and Nandina Avenue to provide a firm five cubic feet per second of potable water supply. The pipeline and meter are needed to convey potable water to EMWD' Perris Valley service area via Mead Valley due to water supply concerns resulting from peak water usage during the summer of 2006.		
2007032081	Walker Parcel Map Modoc County --Modoc A parcel map proposal to divide an existing 32 acre parcel into 3 resulting parcels of 22 acres, 5 acres and 5 acres.	<b>Neg</b>	04/13/2007
2007032083	Installation of ten Portable Buildings (16) Classrooms) at the Existing Dos Rios Elementary School North Sacramento School District Sacramento--Sacramento It was determined by the Leas Agency that the proposed action will not result in significant impacts if mitigation measures were taken. The proposed site will be utilized for a K-6 elementary school.	<b>Neg</b>	04/13/2007
1998091007	State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano Caltrans, Planning Palmdale--Los Angeles The project proposes the permanent removal of sections of seven unnamed ephemeral streambeds, impacting 0.90 acre of streambed, by the widening of Route 138 from 96th Street East to 106th Street East, and the replacement and/or extension of several culverts. The project shall require grubbing and grading of the subject property along the shoulder, required to accommodate roadway drainage and maintenance access, removing all native plants; dominated by Four-winged Saltbrush, Rabbit Brush, and Joshua Trees. The existing seven ephemeral streams wash under the roadway. The existing culverts shall be replaced with larger culverts to accommodate flow and potential use by wildlife. Fill shall be placed only in the immediate areas of the widening project in order to widen the roadway and extend the length of the upgraded culverts. A trapezoid ditch shall be constructed along the roadway to accommodate roadway drainage and transport flows to the upgraded culverts. No diversions are proposed. The Operators activities shall involve the use of the following equipment to accomplish the subject project: trucks (two or more tons), scrappers, excavators, compactors, and asphalt pavers.	<b>NOD</b>	
2000042043	Water Quality Certification for the Battle Creek Salmon and Steelhead Restoration Project State Water Resources Control Board, Division of Water Rights Anderson, Red Bluff--Shasta, Tehama The project is expected to be contracted in two phases and will include modifications to the facilities at eight Pacific Gas and Electric Company (PG&E) dam sites located on the North Fork Battle Creek, South fork Battle Creek, Ripley Creek, and Soap Creek. Phase 1, which will improve fish passage on the North Fork of Battle Creek, includes removal of Wildcat Diversion Dam and installation of fish screens and ladders on Eagle Canyon and North Battle Creek Feeder Diversion Dams. To eliminate the risk of entrainment of salmonids in the water conveyance facilities at Inskip Powerhouse and Coleman Diversion Dam, Phase 1 will also include installation of tailrace connectors to convey water directly from the	<b>NOD</b>

2006122102	Eureka Bulk Terminal Phytoremediation Eureka, City of Eureka--Humboldt CBE, LLC proposes to plant up to 550 trees at the Eureka Bulk Terminal as part of the site remediation project to remove petroleum hydrocarbons from soil and groundwater at the site. The trees will be planted in existing paved portions of the site in patented proprietary TreeWell® Systems, which direct the roots to grow into the shall groundwater table rather than just below the soil surface. The contractor that is selected to implement the phytoremediation plan will be trained and authorized to work with hazardous materials. Prior to conducting any ground disturbing activities, CBE, LLC will provide the contractor with a copy of SHN's Soil and Groundwater Management Contingency Plan (SHN, 2006). To provide access to the northwestern portion of the site, a new roadway will be constructed. Once the phytoremediation system is established and in operation, the existing dual phase extraction system will be turned off. The phytoremediation system will be removed from the site upon a determination by the California Regional Water Quality Control Board, North Coast Region (RWQCB) that the system has achieved remediation goals, which is expected to take 5 to 20 years. With that determination, the trees will be removed and the site will be restored to pre-project conditions for continuation of Coastal Dependent Industrial uses.	<b>NOD</b>	
2007011036	State Route 86S at Airport Boulevard New Interchange Improvement Caltrans #8 Coachella--Riverside The California Department of Transportation proposes to construct a new interchange on SR-86S at Airport Boulevard, post mile R15.6 (KP R25.1) to post mile R17.8 (KP R28.6) in the City of Coachella in Riverside County. The project would consist of a two-quadrant cloverleaf interchange.	<b>NOD</b>

2007039013	Streambed Alteration Agreement 1600-2006-0428-3 / 1-06-009 SON Forestry and Fire Protection, Department of --Sonoma The Operator proposes the construction and installation of three temporary bridge watercourse crossings in Class I (i.e., fish-bearing) watercourses. The bridge crossings are proposed on the Gualala Redwoods Inc. ownership in tributaries to the mainstem Gualala River and the South Fork Gualala River, Sonoma County. The bridges are proposed to allow timber harvesting and river gravel mining equipment to access work sites throughout the ownership. The North Fork Confluence Summer Bridge is planned as a temporary bridge crossing of the North Fork Gualala River located approximately 100 feet upstream from its confluence with the mainstem Gualala River. The Rockpile Creek Summer Bridge is planned as a temporary bridge crossing of Rockpile Creek, located approximately 500 feet upstream from its confluence with the South Fork Gualala River. The Buckeye Creek Summer Bridge is proposed as a temporary bridge crossing of Buckeye Creek, located approximately 600 feet upstream from its confluence with the South Fork Gualala River. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0428-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Henry Alden of Gualala Redwoods, Inc.	<b>NOD</b>	
2007038135	Tree-of-Heaven Removal - Carnegie State Vehicular Recreation Area Parks and Recreation, Department of --San Joaquin This project will treat approximately 5 acres of tree-of-heaven ( <i>Ailanthus altissima</i> ), a non-native invasive plant species, on the east and west side of the Carnegie Sector Office road. Treatment methods may include foliar spraying, basal bark spraying, stem injection, and cutting.	<b>NOE</b>	
2007038136	Bureau of Audits and Investigations Office of the Inspector General Sacramento--Sacramento The California Office of the Inspector General, Bureau of Audits and Investigations (BAI), proposes to lease approximately 6,384 square feet of office space for an extension to it's BAI office in Sacramento.	<b>NOE</b>	
2007038137	Napa State Hospital Memorial and Wall Mental Health, Department of Napa--Napa Construct a memorial wall within the boundaries of the existing cemetery on the Napa State Hospital Campus. The memorial is approximately 4,070 square feet and will be constructed of reinforced concrete. The memorial wall is circular in shape so that the visitor, while inside of the memorial, will be able to view the cemetery grounds beyond, with the wall, inscribed with the names of the 4,500 patients buried in the cemetery always in the foreground.	<b>NOE</b>

2007038138	Grasslands State Park Boat Ramp, Parking and Restroom; SAA 2006-0174-R4; San Joaquin River Boat Ramp Fish & Game #4 --Merced Construct a 20-foot wide by 72-foot long boat ramp, place riprap, and revegetate shoreline with native vegetation.	<b>NOE</b>	
2007038139	Bear Creek CWSC Lower Diversion Fish Screen Installation Fish & Game #3 Woodside--San Mateo Installation of an agency-approved fish screen at California Water Service Company's Intake Facility. The streambed alteration agreement issued by the Department does not address incidental take that may be occurring due to the lack of adequate bypass flows at this facility. SAA #1600-2006-0232-3.	<b>NOE</b>	
2007038140	Sand Source Acquisitions for Coachella Valley Fringe-toed Lizard Preserve Coachella Valley Conservancy --Riverside The project consists of the purchase of land from one or more willing sellers with Environmental Enhancement and Mitigation grant funds and local matching funds to conserve the land in its natural state to protect the fluvial and aeolian sand transport processes necessary to maintain habitat viability on the Coachella Valley fringe-toed Lizard Preserve.	<b>NOE</b>	
2007038141	North Etiwanda Preserve Access Control Project San Bernardino County --San Bernardino The purpose of the Preserve is to retain the area as open space preserving the native habitat and cultural resources of the site. The Preserve is operated under the terms of a Conservation Easement which restricts uses of the Preserve to those which preserve the Conservation Values of the Preserve. The Preserve contains trails and roads for access to the natural open space area and the historic resources contained in the Preserve.	<b>NOE</b>	
2007038142	Whitman Winery, San Antonio Creek Restoration Project Fish & Game #5 Ojai--Ventura Alter the streambed by restoring two sections of bank which were eroded by the winter storms. The upstream end includes 1,200 linear feet of bank on the east side, and 500 linear feet on the downstream end by the winery entrance. Fill material will be from an emergency 1,200 linear foot pilot channel excavated during the storms, and local native material from the area. The banks will be graded to a 2:1 slope and planted with native vegetation, such as willows and sycamore, to old the new bank. SAA #1600-2005-0-R5.	<b>NOE</b>	
2007038143	Streambed Alteration Agreement (1600-2006-0405-R5) Regarding I-5 Stonehill project Fish & Game #5 San Juan Capistrano--Orange The project area is located within an unnamed soft bottom channel in the Operator's right of way for the northbound interstate 5, specifically on the site of the Camino Capistrano/Stonehill Drive On-Ramp construction project within the Mission Viejo Hydrological Area in the City of San Juan Capistrano, County of Orange. The Operator altered the streambed by discharging soil, rocks, and debris into the jurisdictional channel and also by affecting riparian vegetation	<b>NOE</b>
